💼 Professional Experience

Freelancer
Machine learning dev
I deployed a machine learning model(text processing/sentiment analysis), which helped to give
the company useful insights into the customer reviews.
I also built a fast, scalable API for a machine learning model.

🎓 Education

WASSCE	2021
St. Johncross seminary	Nsukka,, Nigeria

Pharm D	present
University of Nigeria	Enugu

🧠 Skills

Python	Machine learning (Tensorflow)	FastAPI(Backend development)

Frontend development(React/Typescript)	Strategic thinkng/Problem solving

🎸 Interests

- Solving problems with code
  and machine learning
